

MARKFORGED MAKE & MUNCH EVENTS

powered by INNOVA SYSTEMS

PLEASE JOIN US OVER THE NEXT 6 MONTHS TO EXPLORE HOW ADVANCED ADDITIVE MANUFACTURING TECHNOLOGY COULD ALLOW YOU TO CREATE STRONG END-USE PARTS ON YOUR DESKTOP.

- Discover the Markforged Digital Forge;
- Get insights in how to design for additive manufacturing (DFAM)
- Hear about how customers are utilising the technology
- See the technology and printers in action and review sample parts

UPCOMING EVENTS

COME, VIEW AND INTERACT with the Markforged printers and experience first hand the quality and strength. Hear from customers who are already leveraging continuous fibre reinforcement in production environments.

Lunch will be provided.

SPACES ARE VERY LIMITED - DON'T MISS OUT!
PLEASE CLICK YOUR PREFERRED DATE TO BOOK YOUR PLACE

CAMBRIDGE

 1 Pioneer Court, Chivers Way, Histon, Cambridge CB24 9PT

Try both Markforged Mark Two (Desktop Range) and Markforged X7 (Industrial Range)

	14/07/2022		11.00 - 13.00
	15/09/2022		11.00 - 13.00

About Markforged - Design, Reinforce, Print, Use

Markforged was founded in 2013 on the belief that additive manufacturing can transform how entire industries operate. Their Digital Forge platform of software, hardware and materials continues to make that possible.

About Innova Systems

Established 2002 in Cambridge, UK, and supporting over 1,500 successful companies, we understand the commercial realities of bringing new products to market and the pressure you're under to design within budget and ahead of forecast. Our engineers have all worked as product designers and it's their passion, understanding and real world knowledge of the design and manufacturing process that shapes the Innova Systems team and our company culture.
